### RE: Freedom Of Information Act Request

This is a request from Citizens for Lowry Landfill Environmental Action Now (CLLEAN) under the Freedom of Information Act. We are requesting copies of specific documents that are required to be maintained in the EPA Region 8 Library/Archives. CLLEAN is a Colorado Non-Profit recipient of the EPA Region 8 Technical Advisor Grant at the Lowry Landfill Superfund Site.

In discussions with Region 8 Lowry Landfill Superfund Site RPM Les Sims, I requested an opportunity to visit Region 8 EPA Library Archives to find documents written by CLLEAN and others and we also requested the responses to those documents pertaining to the Lowry Landfill Superfund Site. Mr. Sims explained that the public is no longer allowed in to the EPA Library to research, and, in order to receive the copies we are seeking, we are now required to file a request for these documents under the Freedom Of Information Act.

We are willing to do our own research in the archives, which would save the EPA from hiring/paying staff to do the research. However, since that is no longer an option, please accept this letter as a request under FOIA to receive copies of the following documents and responses from EPA Region 8.

- **January 13, 1999** letter from CLLEAN to Jack W. McGraw, Deputy Regional Administrator, Region 8 EPA titled: **Lowry Landfill Superfund Site Oversight Activities**. Please provide Mr. McGraw's response to CLLEAN.
- **September 14, 2006** letter from CLLEAN to RPM Bonita Lavelle titled: **July 2006 Fact Sheet Response from EPA**. Please also provide Ms. Lavelle's response to this letter.
- **November 28, 2006** letter from Lee Pivonka, Colorado Department of Human Health and Environment (CDPH&E) to Region 8 RPM Bonita Lavelle titled: **November 3, 2006 Draft Five Year Review, Lowry Landfill Superfund Site, Arapahoe County, Colorado**.

- **May 15, 2007** letter to Bonita Lavelle from CLLEAN titled: **Comments Regarding the North End Groundwater Monitoring Plan, April 16, 2007.** Please provide EPA response to CLLEAN.
- **March 8, 2010** Letter from Lee Pivonka, Colorado Department of Human Health and Environment titled: **September 30, 2009 FINAL Remedial Action and Operations and Maintenance Status Report, January through June, 2009, Lowry Landfill Superfund Site, Arapahoe County, Colorado.** Please provide Ms. Lavelles's response to CDPHE.
- **August 22, 2011** letter from Lee Pivonka (CDPH&E) to RPM Bonita Lavelle titled: **July 26, 2011 Response Action Work Plan to Extract Additional Groundwater from Upgradient of MW77-WD, Lowry Landfill Superfund Site, received July 26, 2011.** Please provide Ms. Lavelle's response.

In order to help determine my status for purposes of determining the applicability of any fees, you should know that we are a State of Colorado Incorporated Non-Profit recipient of the Environmental Protection Agency Technical Advisor Grant (TAG).

We request a waiver of all fees for this request. Disclosure of this requested information to CLLEAN is in the public interest because it is likely to contribute significantly to public understanding of operations or activities at the Lowry Landfill Superfund Site and of government involvement at the Site and is not primarily in my commercial interest.

The requested documents will be used to confirm and verify conclusions and decisions made by EPA Region 8 as regards actions taken at the Lowry Landfill Superfund Site.

I request that the information I seek be provided in electronic format, and I would like to receive it on a personal computer disk or CD ROM.

We also include a telephone number at which we can be contacted, if necessary, to discuss any aspect of our request.

Thank you for your consideration of this request.

Sincerely,

Bonnie L. Rader, President Citizens for Lowry Landfill for Environmental Action Now (CLLEAN)
